

Slip-On Line (Titanium)

Produkt-Code: S-AR/TI/6H **CARB RP** **ECE**

Featuring a muffler and collector with a resonator made from lightweight titanium, the Slip-On Line (Titanium) exhaust system fits directly onto the Stelvio Quadrifoglio's stock downpipes. The system includes parts cast in the company's in-house foundry, such as the valve housing and X-part in the muffler, which is perfectly formed to allow exhaust gases to mix at a precisely defined mixing ratio.

Developed to deliver both power and torque gains throughout the range and significantly reduce back pressure, it is finished with handcrafted carbon-fibre and titanium tailpipes to enhance the visual enjoyment of the exhaust.

In-depth engineering has produced a deep and sporty sound with no unwanted drone, perfectly

suitable for everyday use. It is distinctly different from the stock system, especially during partial load, when shifting, and at higher rpms, where it delivers a pure racing sound. The system is a simple plug-and-play operation to fit, and it has been designed to meet ECE type approval. The optional Akrapovič Sound Kit is also available.

TECH. DATEN	EINHEIT	ORIGINAL	AKRAPOVIČ	MAX. WERTE
Maximale Leistung	kW	369.9 bei 6650 rpm	372.9 bei 6650 rpm	+ 4.5 bei 6500 rpm
	PS (m)	502.9 bei 6650 rpm	507 bei 6650 rpm	+ 6.1 bei 6500 rpm
